

## Meeting Dates 2022

## Note to Investigators:

Research proposals advance through two mandatory stages of review and approval processes.

The first approval is an administrative approval from the GRH Research Committee (GRH RC). Receiving the GRH RC approval permits your application to be reviewed by the Tri-Hospital Research Ethics Board (THREB). If your research does not involve human subjects in the study, THREB review is not required. GRH RC and THREB approvals are both required prior to initiation of the research project, the committee review occurs in consecutive months.

Please consider the following meeting dates and corresponding due dates when planning your research application schedule.

**How to read the schedule:** Reading across the table, each study will follow four deadlines prior to activation

Aug 22
